"MAIN STREET NORTH WALKWAY CONSTRUCTION UPDATE"

Dear Resident,

As you are aware, the construction activity on the asphalt walkway on Main Street North, which began in November 2011, had been halted for the winter season. Our contractor has commenced remobilizing to the site to prepare to complete the walkway project. The schedule of planned work is as follows:

- Reinstatement of silt control measures
- Grading and compaction of walkway gravel prior to paving of walkway
- Paving of walkway (timing dependent on when asphalt plants open for the season)
- Final restoration, including topsoil and 'Terraseed' (mixture of mulch and seed) placement
- East-side ditch cleanout near entrance to 155 Main Street
- Pavement markings in entrance to 155 Main Street

The final completion of this project is now scheduled for the end of June, 2015, weather permitting. Please note that this date is approximate, and the completion date can be affected by inclement weather.

We will continue to ensure that access to the driveway for 155 Main Street North will be maintained at all times during the final phase of the project, as will access for vehicular and emergency services on Main Street North.

Our consulting engineers, GHD, will have a full time representative on site to monitor the construction completion in 2015, and to deal with any concerns you may have. Should you have any questions regarding the construction, please contact Mr. Steve Peacock, GHD's site construction manager, during daytime hours at (905) 718-8241, or telephone the undersigned at 905-953-5300, enter 2, followed by 2512.

Yours truly,

Bill Gould, A.Sc.T.,
Capital Projects Co-ordinator
