**NOTICE OF PROJECT**

**ARNOLD CRESCENT  
ROAD RECONSTRUCTION AND WATERMAIN REPLACEMENT  
FROM ALEXANDER ROAD TO 37m EAST OF GRACE STREET**

---

The Town of Newmarket's Road Needs Study has identified Arnold Crescent as one of the residential streets in the Town requiring reconstruction. Subject to Council approval, availability of funds, coordination with other construction projects throughout the Town and plans by utility companies to upgrade their infrastructure, the reconstruction of Arnold Crescent will form part of the Town of Newmarket's future Capital Works Program. In preparation for this project to proceed to construction at an appropriate time in the future, the Town, through its consultant (Ainley Group), has arranged to undertake engineering investigations, surveys, soils studies and other field information gathering. This fieldwork will be underway shortly and is expected to be completed by the end of 2015, weather permitting.

The surveyors are required to determine ground elevations, property lines and the location of all utility poles, driveways, trees and utility cabinets, etc., located within and adjacent to the Town's right-of way. Houses and driveways need to be shown on the project documents and consequently, there will be a need to enter onto your property **(but not inside the house)** to take measurements. Town sewer and watermain pipes, as well as other underground utilities will also need to be included in the survey. The location of these services will be marked out by the applicable agencies with paint marks or flagging.

A Public Information Centre (PIC) will be held at a future date to provide residents the opportunity to review the proposed design, discuss the project with Town staff and provide input. You will be notified in writing of the date of the PIC and details of the proposed works.

A decorative graphic in the bottom right corner consisting of two curved, overlapping lines, one light grey and one dark grey, curving upwards and to the right.

We respectfully request that you delay any plans you may have for driveway improvements until completion of the proposed road works, which we expect to happen within the next few years. This will avoid potential disruption to your new driveway.

Should you have any questions regarding this project please contact the undersigned at 905-953-5300, enter 2, followed by 2504 via telephone or at [tungar@newmarket.ca](mailto:tungar@newmarket.ca) via e-mail.

Yours truly,
