**NOTICE OF PROJECT
QUEEN STREET WATERMAIN REPLACEMENT**

Dear Resident,

The Town of Newmarket is planning to replace the existing watermain, appurtenances and service connections on Queen Street between Lorne Avenue and Wilstead Drive sometime in the future. In preparation for this project to proceed to design, the Town has arranged with its consultant (Ainley Group) to undertake engineering investigations, surveys, soils studies and other field information gathering this Fall. This fieldwork will be underway shortly and is expected to be completed by the end of 2015, weather permitting.

The surveyors are required to determine ground elevations, property lines and the location of all utility poles, driveways, trees, utility cabinets, etc., within the Town's right-of-way. As houses and driveways need not be shown on the project drawings, there will be no need to enter onto your property to take measurements. Town sewer and watermain pipes, as well as other underground utilities such as Bell, gas, cable, etc. will also need to be included in the survey. The location of these services will be marked out by the applicable agencies with paint marks or flagging tape.

A Public Information Centre (PIC) will be held at a future date to provide residents the opportunity to review the proposed design, discuss the project with Town staff and provide input. You will be notified in writing of the date and location of the PIC.

Should you have any questions regarding this project please contact the undersigned at 905-953-5300, enter 2, followed by 2504 via telephone, or at tungar@newmarket.ca via e-mail.

Yours truly,

Tom Ungar, P.Eng.
