

Crossing Enhancements, Improving Pedestrian Safety

March 26, 2024 - April 26, 2024

The local project?

At Metrolinx, safety is our top priority.

We're performing safety enhancements to level crossings on the Barrie Corridor. These improvements will make the crossings even safer for vehicles, pedestrians, and the community.

What to expect

Metrolinx will be installing tactile plates and painting line markings on the sidewalks along the level crossings to support safety enhancements as part of the GO Expansion project.

A small portion of the sidewalk will be closed off while the work is being completed. Signage will be in place to redirect pedestrians in the nearby areas. Residents may also experience increased noise levels from construction equipment.

Work will start on March 26th and continue until the end of April. Metrolinx may be in your community multiple times over the work period to conduct safety enhancements on each side of the crossing and to paint markings. The work will occur in phases to ensure pedestrian access is maintained on one side of the crossing.

When is the work taking place?

Information as of: March 15, 2024

King City	
Station Rd.	April 25
